DETAILED ACTION

1. This action is in response to applicant's amendment filed on September 16, 2005. **Claims 1-9,11,13,17,19 and 20** are now pending in the present application.

Drawings

2. The drawings submitted on March 14, 2001 have been approved by the draftsman.

REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance: the application is allowable for the reasons set forth on pages 14-15 of the Applicant's response filed on July 12, 2004 and in view of the Applicant's response filed on September 16, 2005.

Regarding claims 1, 17 and 20, as noted therein, the claimed invention requires *inter alia* mapping values of services attributes based on values of service attributes as requested by a user equipment for a request transmission on subscriber specific values of service and on common values of service attributes in combination with the rest of the limitations of the claims whereas the closest prior art Mizell et al. only teach of assigning values of service attributes to transmission between user equipment based on stored command values and do not teach or suggest mapping values of services attributes based on values of service attributes as requested by a user equipment for a request transmission on subscriber specific values of service and on common values of service attributes in combination with the rest of the limitations of the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
